Part I

Project overview

1 Introduction

Admissions into educational institutions are one of the biggest challenges faced by students and parents, this process is associated with tons of queries forcing them to query through number of websites, make visits to the institutions.

We as a group have made an earnest effort at developing ‘Midst’ an android application for Dera Bassi campus aimed at minimizing pre and post admission hassles.

2 Features

1. A navigation drawer listing the users - parents, faculty, students, miscellaneous users
2. Every user fragment features buttons to navigate through queries
3. Strong user verification - every user logging in gets verified. For unauthorised access application stops
4. The miscellaneous fragment includes a video about the campus prepared by authorities at the campus

3 Options available with users

3.1 Parents

1. Pay wards fee

3.2 Students

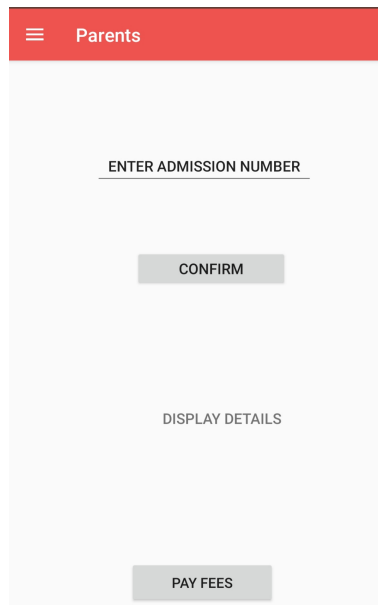

1. Curriculum details
2. Faculty details
3. Book availability status in library

3.3 Faculty

1. Retrieve details of particular student

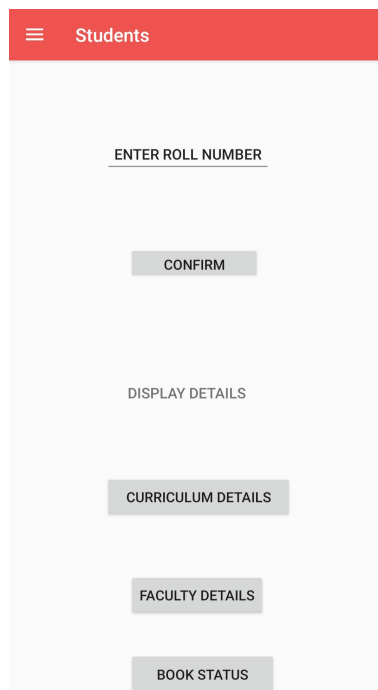

3.4 Miscellaneous

1. Go through admission procedure
2. Accommodation related queries
3. Placement record

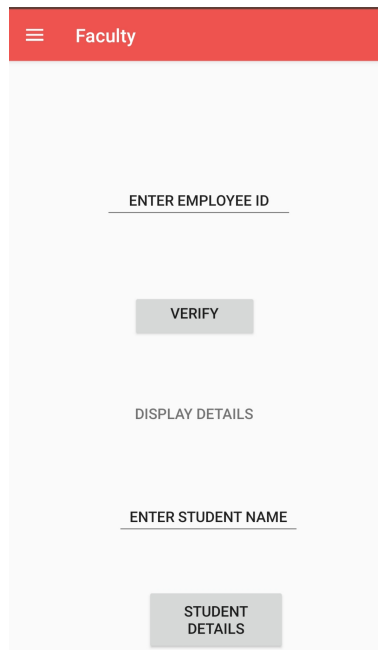

The 'Parents' window features a red header bar with a hamburger menu icon and the title 'Parents'. The main content area is light gray and contains a centered text input field labeled 'ENTER ADMISSION NUMBER'. Below this field are three gray buttons: 'CONFIRM', 'DISPLAY DETAILS', and 'PAY FEES', arranged vertically.

Figure 1: Parents window

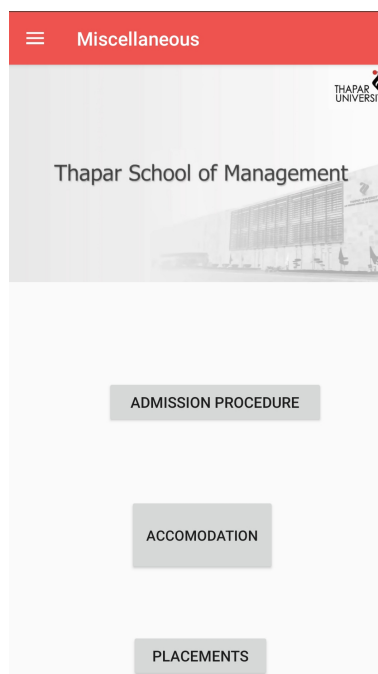

The 'Students' window features a red header bar with a hamburger menu icon and the title 'Students'. The main content area is light gray and contains a centered text input field labeled 'ENTER ROLL NUMBER'. Below this field are five gray buttons: 'CONFIRM', 'DISPLAY DETAILS', 'CURRICULUM DETAILS', 'FACULTY DETAILS', and 'BOOK STATUS', arranged vertically.

Figure 2: Students window

The Faculty window features a red header bar with a hamburger menu icon and the text "Faculty". Below the header, the interface is centered and contains the following elements: a text input field labeled "ENTER EMPLOYEE ID", a grey button labeled "VERIFY", a text label "DISPLAY DETAILS", another text input field labeled "ENTER STUDENT NAME", and a final grey button labeled "STUDENT DETAILS".

Figure 3: Faculty window

The Miscellaneous window has a red header bar with a hamburger menu icon and the text "Miscellaneous". Below the header is a banner image of a modern building with the text "Thapar School of Management" and the Thapar University logo in the top right corner. Underneath the banner, there are three grey buttons arranged vertically, labeled "ADMISSION PROCEDURE", "ACCOMODATION", and "PLACEMENTS".

Figure 4: Miscellaneous window

Part II

Project Requirements

4 Functional

1. Automatically validate user by evaluating login requirements
2. Navigation window should be right aligned with respect to UI

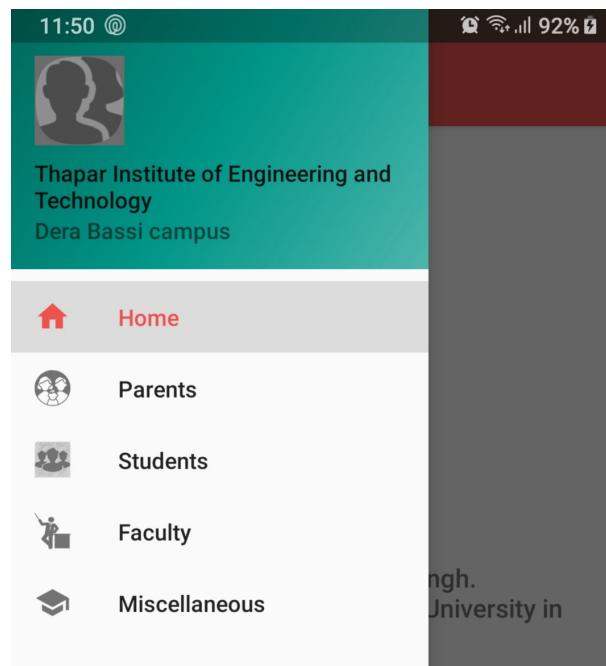

Figure 5: Navigation window

3. Background colour of all windows in the application should be #ffffff, navigation drawer header must be #03DAC5 colored, app bar color should be #EF5350
4. Only the specified user has the authority to access its own fragment
5. Buttons redirect the user to valid webpages

5 Non functional

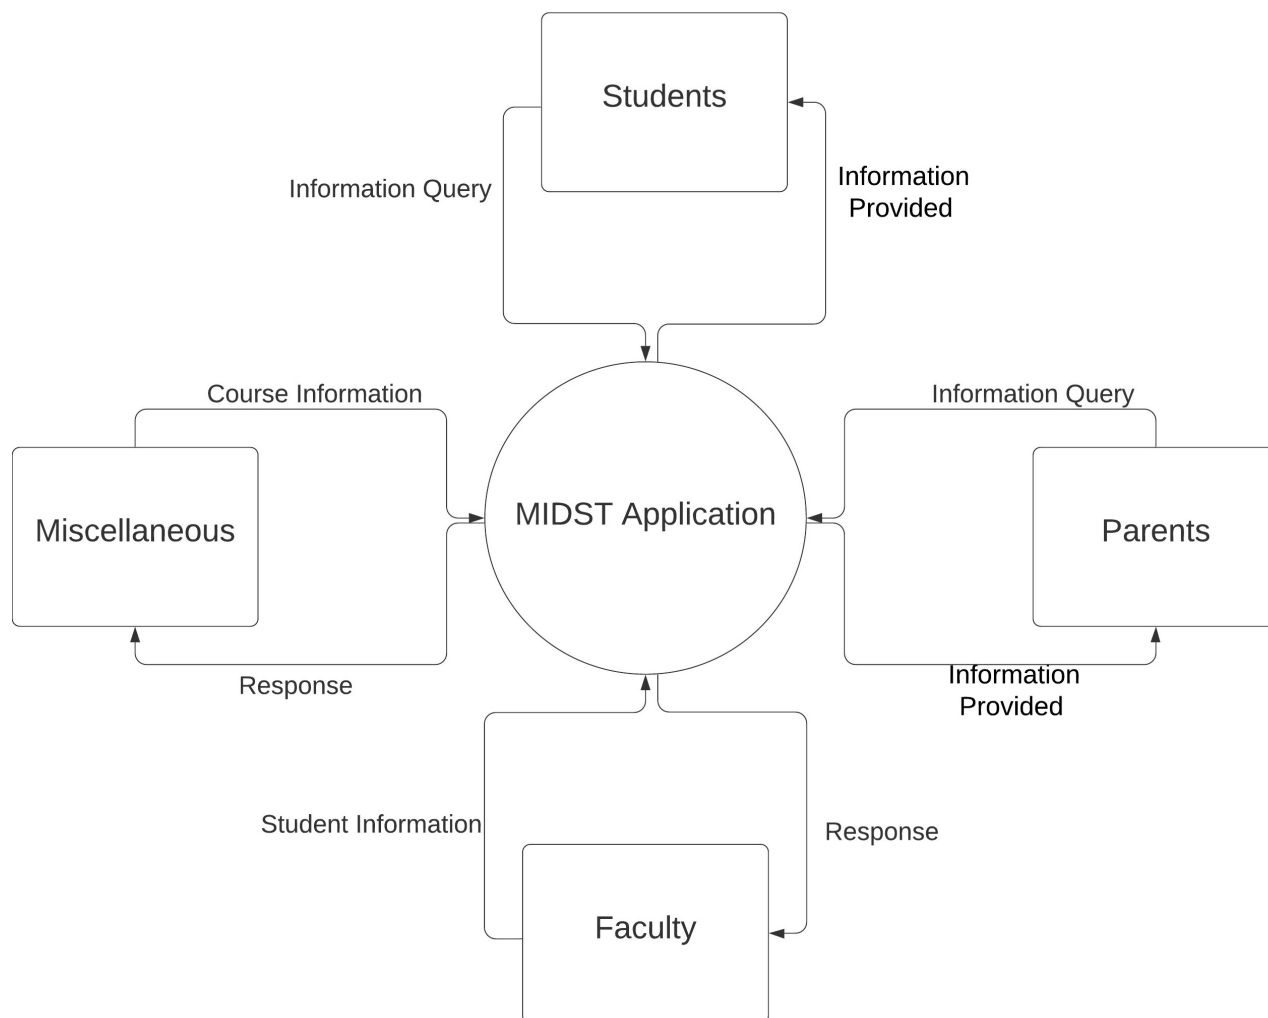

1. Mobile application should be portable
2. The database and website(s) should be capable of handling atleast 150 users

Part III

Structured Analysis

6 Data Flow Diagram

6.1 Level 0

6.2 Level 1

6.3 Data Dictionary

Display = User + Query

Numbers : Valid numbers = Admission Number + Employee ID + Roll number

admission number : integer *Parent's input*

employee id : integer *Faculty's input*

roll number : integer *Student's input*

consent : boolean

receive : boolean

request : boolean

verify : boolean

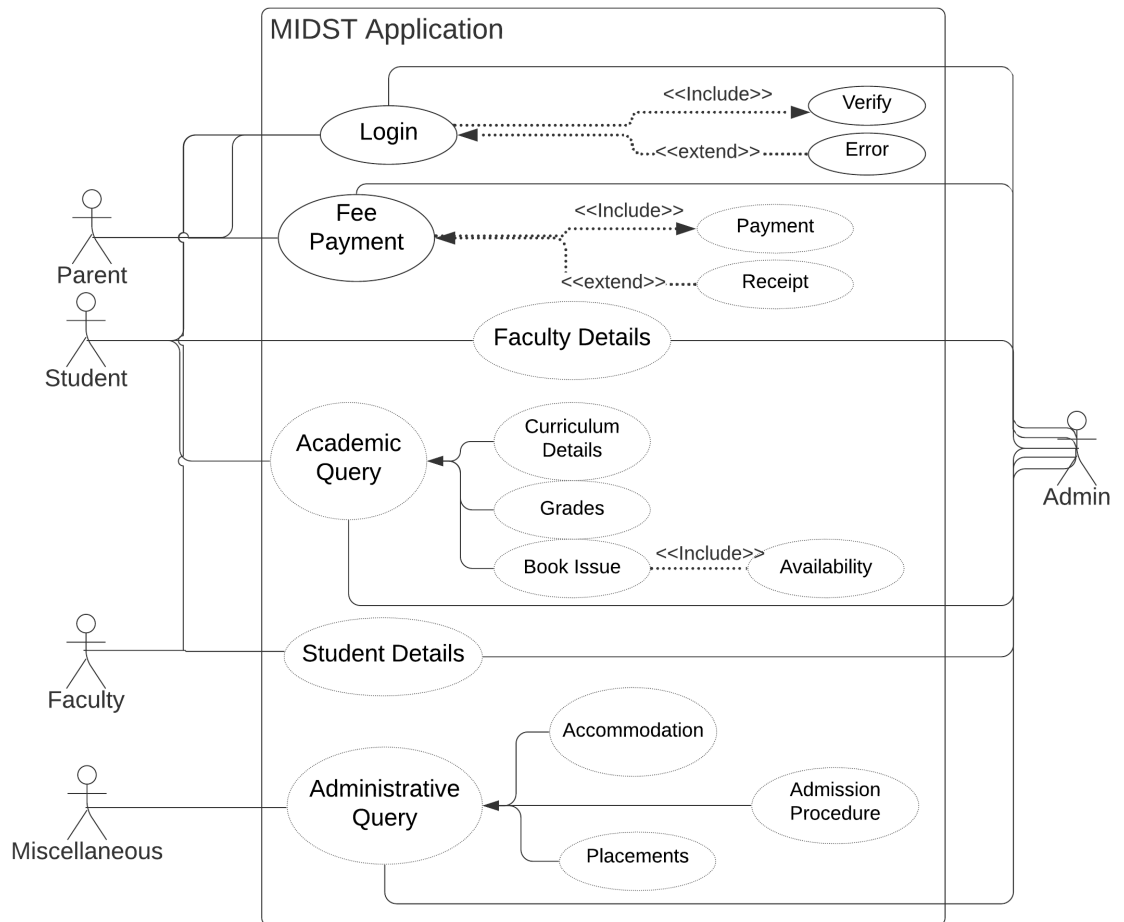

status : boolean

error : string *Error message*

Part IV

Object Oriented Analysis

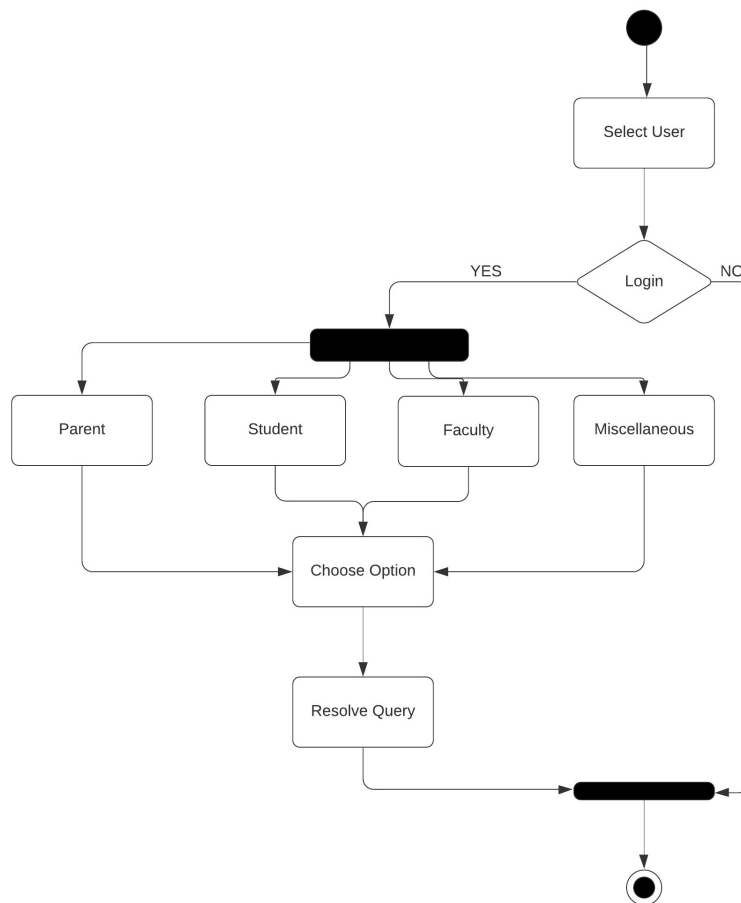

7 Use Case Diagram

8 Use Case Template for Students

| | |
|-----------------------|------------------------------------------------------------------------------------------------------------------------------------|
| Title | Student's queries |
| Description | Student access the system for academic details, faculty details and library book status |
| Primary Actor | Student |
| Preconditions | Student is logged into system |
| Postconditions | Student is registered for course |
| Main Success Scenario | <ol style="list-style-type: none"> 1. Students logins in by roll number 2. Chooses particular option |
| Extensions | <ol style="list-style-type: none"> 1a. Student is unregistered -1a1. System stops and user logins in again |

9 Activity Diagram

10 Sequence Diagram

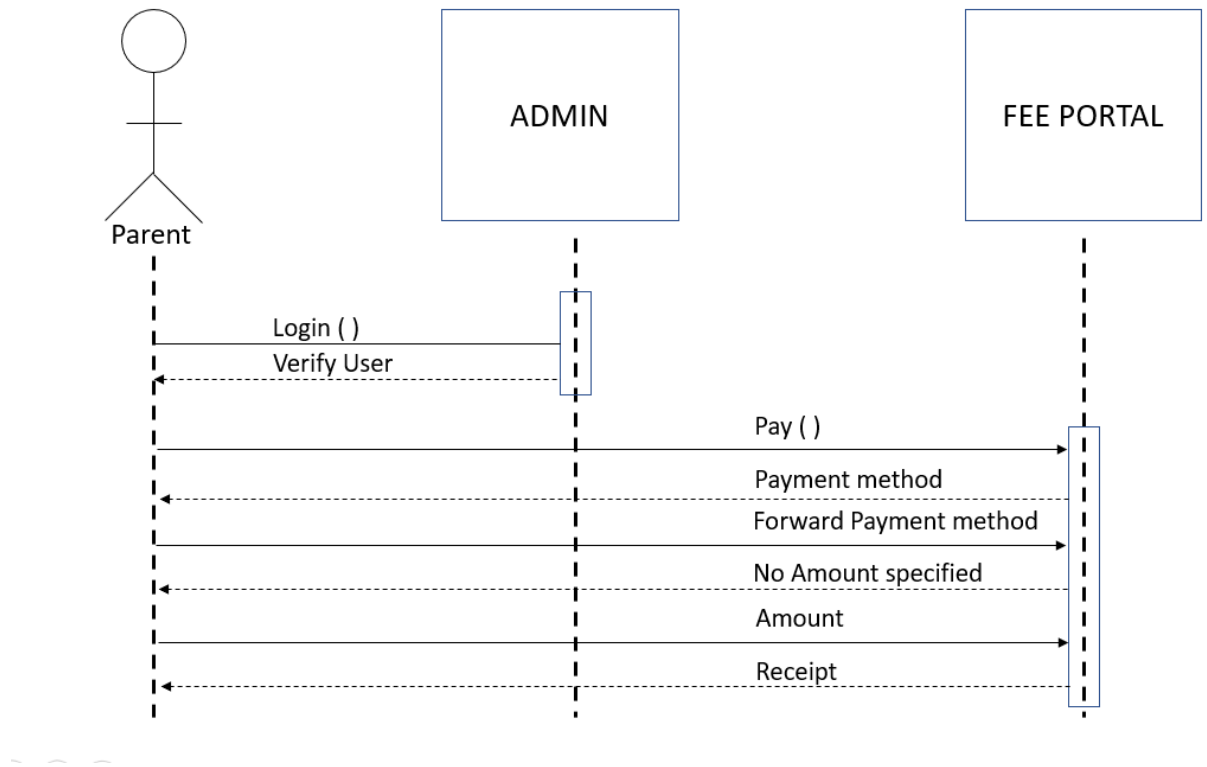

Figure 6: Parent

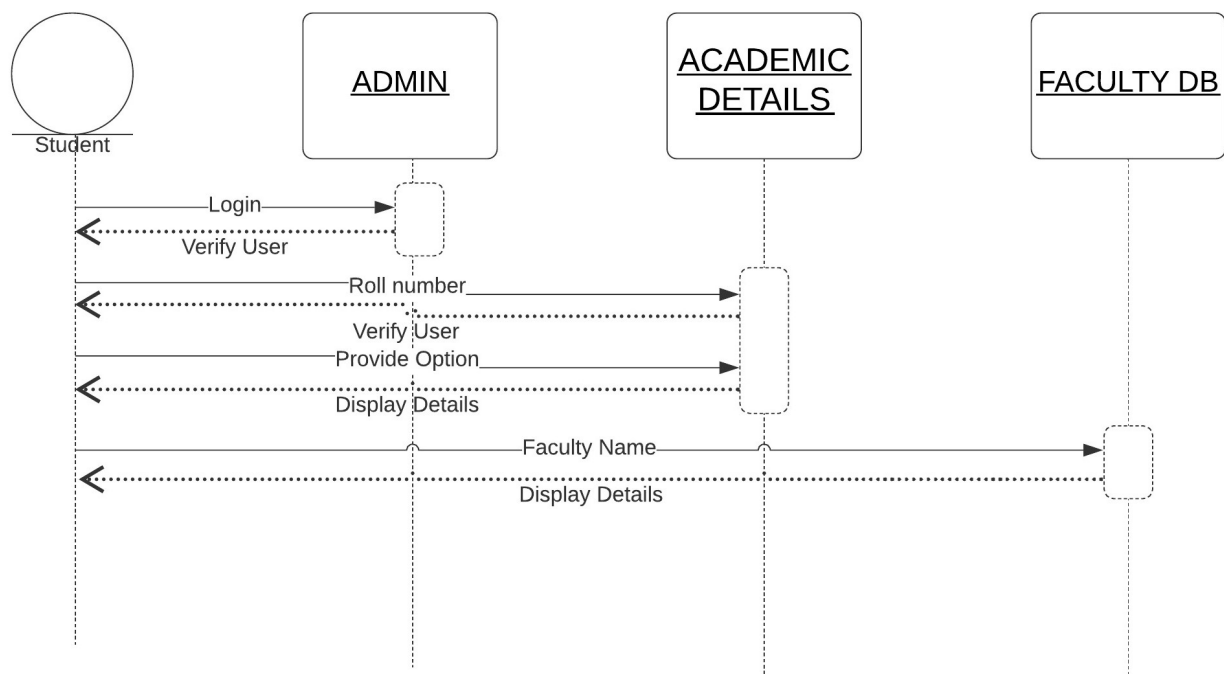

Figure 7: Student

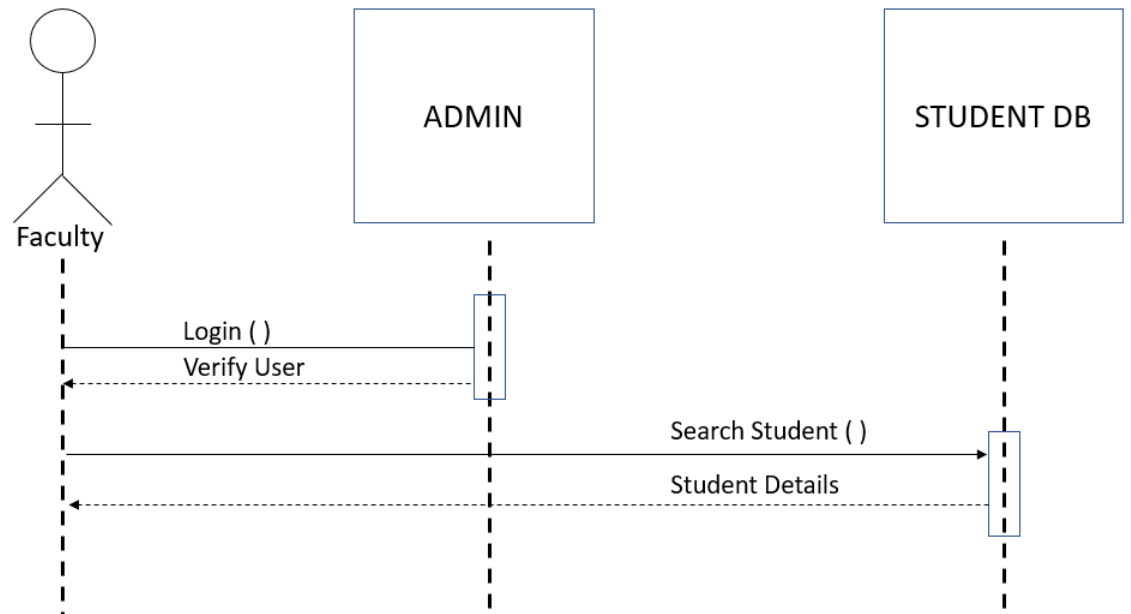

Figure 8: Faculty

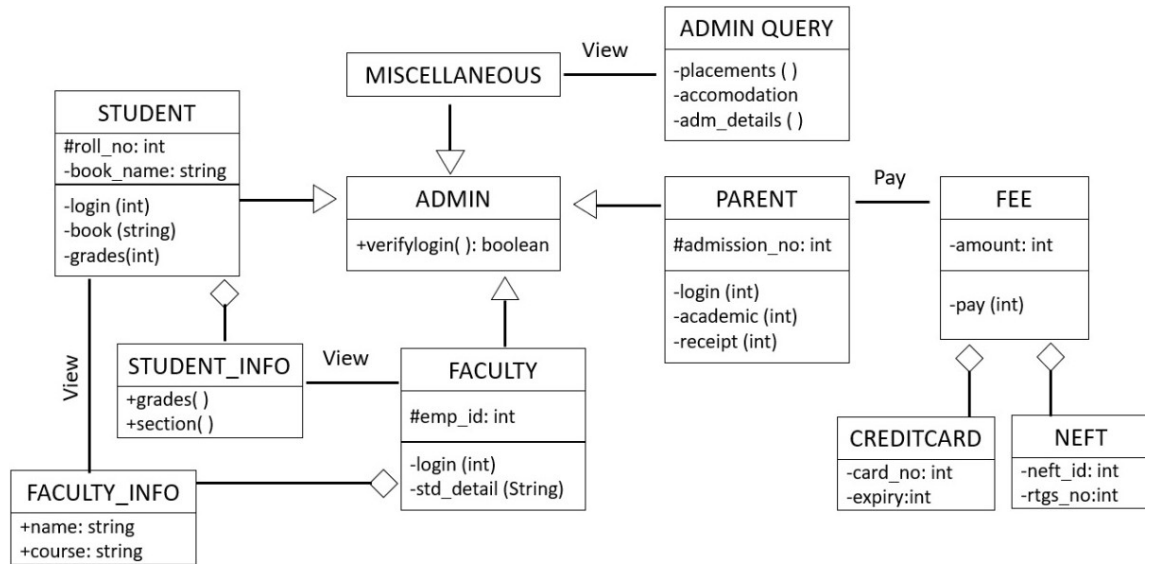

Figure 9: Miscellaneous

11 Class Diagram

Part V

Activity Planning

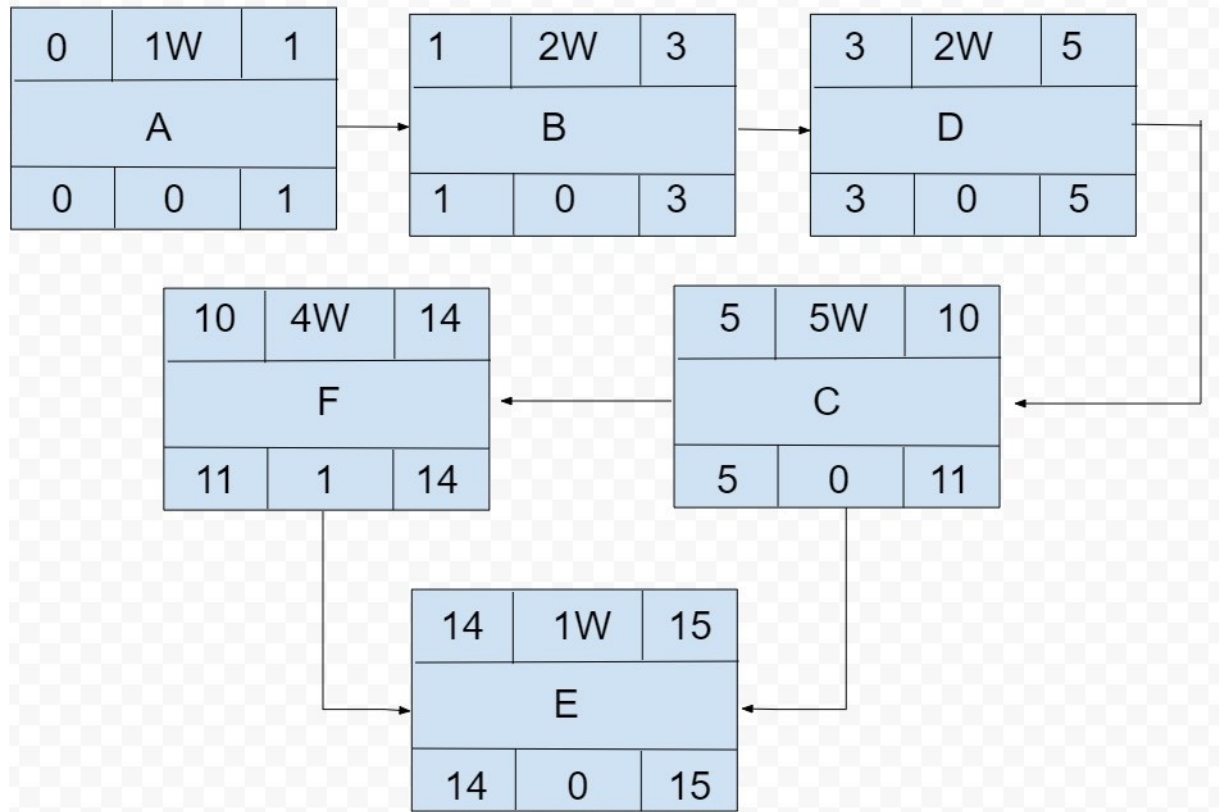

12 Gantt Chart

13 CPM Table

| ID | Activity Name | Duration | Precedents |
|----|--------------------|----------|------------|
| A | Hardware Selection | 1 | |
| B | Software Designing | 2 | A |
| C | Coding | 5 | D |
| D | Data Presentation | 2 | B |
| F | Testing | 4 | C |
| E | Installation | 1 | C, F |

14 Activity on Node representation

15 Critical Path

No delay in project deadline, calculate total float

1. Path A - B - D - C - F - E : Float = 1
2. Critical Path A - B - D - C - E : Float = 0

Part VI

Testing

16 Unit testing

| S No. | Screen | Test Case | Expected Result | Result |
|-------|----------------|-----------------------------------|---------------------------------------------------------|--------|
| 1 | Hamburger Icon | Check navigation window | All users get displayed in order along with their icons | Pass |
| 2 | Parents | Check orientation of all features | All appear in order | Pass |
| 3 | Parents | Enter admission number | Entered successfully | Pass |
| 3 | Parents | Click confirm button | Displays student name in textView | Pass |
| 4 | Parents | Click pay fees button | Redirects to payment portal | Pass |
| 5 | Students | Check orientation of all feature | All appear in order | Pass |
| 6 | Students | Enter roll number | Entered successfully | Pass |
| 7 | Students | Click confirm button | Student's name displayed in display details box | Pass |
| 8 | Students | Click curriculum details | Display a pdf file | Pass |
| 9 | Students | Click faculty details | Redirects to faculty webpage | Pass |
| 10 | Students | Click book status button | Redirects to Nava Nalanda library website | Pass |
| 11 | Faculty | Check orientation of all features | All appear in order | Pass |
| 12 | Faculty | Enter employee id | Entered successfully | Pass |
| 13 | Faculty | Click confirm button | Faculty name displayed in display details box | Pass |
| 14 | Faculty | Enter student name | Entered successfully | Pass |
| 15 | Faculty | Click student details button | Redirected to portal | Pass |
| 16 | Miscellaneous | Video playing automatically | Video gets played by default | Pass |
| 17 | Miscellaneous | Check orientation of features | All are properly oriented | Pass |
| 18 | Miscellaneous | Click placement button | Redirected to CLIP website | Pass |
| 19 | Miscellaneous | Click accommodation button | Redirected to LMTSM hostel web page | Pass |
| 20 | Miscellaneous | Click placement button | Redirected to admissions web page | Pass |

17 Compatibility Testing

1. This application has been tested for various screen sizes
2. Tested for orientation changes - portrait and landscape
